## Vintage Polish Military Wool Blanket

Please read this description very carefully, as each blanket is stunningly unique and different! The pictures shown are just a few examples of the different variations of this blanket.

These Cold War Era blankets are both bold and stunningly beautiful. Thick and heavy, the blankets are an ideal blend of 50% wool and 50% polyester. They are easily some of the most interesting and unique blankets we have ever come across. While digging through warehouses in Europe,

we were quite lucky to find such a hidden gem and we bought them all! The challenge is that almost every blanket is different!

Faced with this dilemma of so many colors and

patterns we decided to sell them

by color. This means you pick one color and

your blanket will contain at least that one color. Choose: Burgundy, Brown, Orange, Red, Yellow, Green, Blue, or Gray. That does

not mean it will be the only color of the blanket, that simply means it will be sure to have the color you picked represented. The patterns also vary so more than likely each blanket you order will be different. These blankets all measure approximately 60" x 80". Edges of the blankets may also vary from whip stitching to hemmed. Unused Condition.

## NATO Military Large ALICE Pack with Frame, MARPAT

There is a reason why other militaries would model a pack after one of the most trusted packs of all time- the US Military Large Alice Pack. Featuring a sturdy metal frame with shoulder straps, kidney pad and waist belt. The enormous main compartment features a 34-liter capacity. There are also 6 outside pockets, 3 smaller upper pockets and 3 large lower pockets. Measures 19" tall x 15" wide x 11" deep. Weighs approximately 6 lbs. Some will have slight corrosion around the frame due to long term storage. This will not inhibit functionality and can be cleaned up in a breeze. Some of the keeper clips seem to show slight signs of wear. Unused Condition.

Czech Military Cadet Border Police Parka

Slightly different than the Czech Border Police Operations Waterproof Parka, this parka is just as nice but with different features.

This cadet parka was skillfully designed to keep you warm and dry in cold and wet weather. The large faux fur collar will certainly keep the chill off your neck in the winter months. Featuring a sash around the waist and a drawstring to keep the coat tight and the cold air out. The button in lining in this coat is very soft and thick, however it does not extend down the length of the arms. Two large front pockets complete this excellent outerwear. This is a very nice, high quality parka. Unused Condition. Olive Green. Sizes: Medium, Large, X-Large, XL-Short, and XX-Large. Limited Quantities.

Italian Air Force Wool Base Layer Set

The best base layer starts with the original insulator wool. Wool provides warmth even when wet and is naturally antimicrobial making it an excellent choice for a next to skin layer. Carefully made with robust stitching (as seen in our detailed photo) and an ideal blend of fabrics; 90% wool and 10% polyester. It feels great on the skin, not itchy, and stretches comfortably. Wear the set together or separately! The top is foliage green in color with a ¼ zip neck and elastic waist/cuffs. Drawers are cream color with extra wide elastic waist for comfort and elastic ankles. Made in Italy.

Sizing note: As is the case with much European clothing, we find that the sizing is just in between standard US sizing. The M/L is right in between medium and large, and could work for both sizes depending on your build. The same applies for the L/XL. Keep in mind it does stretch.

## U.S. G.I. Extreme Cold Temperature Boots, No Valve

These unissued boots are offered at a great price for those looking for an even better deal on the hard-to-find genuine Military issue "Mickey" boots. These boots are older stock and do not have a valve. They were made primarily for ground troops. The valve was ONLY designed to equalize pressure in the boot if you were wearing these boots at high altitudes or airborne. Contrary to popular

belief, this is a better boot because moisture cannot get into the boot through the open valve and compromise the multiple layers of wool felt insulation. Perfect for hunting, snowmobiling, ice fishing and just about any other cold weather activity. Sizes tend to run about one size large. Boots are not returnable. Unused/Unissued Condition.

## NATO Military Large Alice Pack with Frame, MARPAT

There is a reason why other militaries would model a pack after one of the most trusted packs of all time- the US Military Large Alice Pack. Featuring a sturdy metal frame with shoulder straps, kidney pad and waist belt. The enormous main compartment features a 34-liter capacity.

There are also 6 outside pockets, 3 smaller upper pockets and 3 large lower pockets. Measures 19" tall x 15" wide x 11" deep. Weighs approximately 6 lbs. Some will have slight corrosion around the frame due to long term storage. This will not inhibit functionality and can be cleaned up in a breeze. Some of the keeper clips seem to show slight signs of wear. Unused Condition.

### Assault Pack

This assault pack is almost as tough as the Marine it was issued to. This pack is loaded with many extra features a typical military assault pack would not have. Featuring adjustable padded, contoured shoulder straps, 2-way zippers, padded foam back, sternum strap and waist belt, and carry handle. One large main compartment and one smaller outside compartment. Both feature plenty of organizational pockets. The real evidence that this pack was overengineered: There are backup metal shoulder strap buckles just in case the main straps or buckles fail. MOLLE compatible for attaching additional pouches. The fact that these packs saw a tour and are still in usable condition really says a lot about the durability. These packs are dirty and will need a good clean up, but do not let that stop you from owning one of the best military assault packs ever produced.

Color: Coyote. Manufactured by Eagle Industries.

## Vintage Polish Military Wool Blanket

**Please read this description very carefully, as each blanket is stunningly unique and different! The pictures shown are just a few examples of the different variations of this blanket.**

These Cold War Era blankets are both bold and stunningly beautiful. Thick and heavy, the blankets are an ideal blend of 50% wool and 50% polyester. They are easily some of the most interesting and unique blankets we have ever come across. While digging through warehouses in Europe,

we were quite lucky to find such a hidden gem and we bought them all! The challenge is that almost every blanket is different! Faced with this dilemma of so many colors and patterns we decided to sell

them by color. This means you pick one color and your blanket will contain at least that one color. Choose: Burgundy, Brown, Orange, Red, Yellow, Green, Blue, or Gray. That does not mean it will be the only color of the blanket, that simply means it will be sure to have the color you picked represented. The patterns also vary so more than likely each blanket you order will be different. These blankets all measure approximately 60" x 80". Edges of the blankets may also vary from whip stitching to hemmed. Unused Condition.

NATO Entrenching Tool/Tri-Fold Shovel

Also commonly known as the Tri-Fold Shovel or E-tool. Made to the same specifications as the U.S. G.I. Entrenching Shovel this NATO model is OD, while the U.S. one is painted black.

This is a favorite used not only by military men all over the world, but is also known as the tool of choice among campers, hikers, survivalists, and even gardeners. Weighing under 3 pounds this sturdy steel shovel can not only dig a trench, it can chop a root, and is equipped with 2 serrated edges for sawing and slicing. These shovels are known as a tri-fold shovel because they fold into three sections which can be freely positioned for different applications, or folded into its own rubberized compact case. This particular shovel was a NATO tool, they were manufactured for the Bundeswehr translated as the German Armed Forces. The shovel indicates this by the "BUND" stamped on the handle. Overall length is approximately 23". These are all Used Nice Condition shovels. NOTICE: These are not cheaply made reproductions. These are rugged dependable shovels made to handle hard work.

## U.S. G.I. Next Generation Improved Entrenching Tool

This next gen e-tool won its government contract through rigorous testing in combat by the United States Marine Corps.

This more modern version of the familiar e-tool has benefited from clever design improvements that make it more durable and lighter weight. Designed to be used as a straight shovel, or with the blade locked at 90 degrees as a pick-hoe. The few important key design improvements are: the ergonomically improved handle is

now made of lightweight reinforced fiberglass, the shaft is now reinforced anodized extruded aluminum and the blade is made of hardened carbon steel. The familiar tightening nut has move next to the handle instead of on the blade end keeping operation easier and the tool cleaner. Weighs 2.2 lbs.

Unused Condition in original manufacturer's box. NATO Approved. Blade made in Finland by Fiskars. Assembled in USA by Gerber Legendary Blades.

## Italian Military M4 Bayonet for the M1 Carbine

The M4 Bayonet Knife was first adopted in 1944 for use with the .30 caliber M1 Carbine. Many countries produced their own M4 bayonets to use on the iconic M1 Carbine. The US Military provided M1 Carbines to Italy in the 1950s and 1960s under what was called the Military Assistance Program. M1 Carbine rifles were used in Italy well into the 1990s. The Italian Military had to have a bayonet for the M1 and ended up producing these excellent M4 bayonets. Blade measures 6 1/2". Hand crafted, wooden grip. Bayonets are dated in the late 1950's and have the Arsenale Esercito Torino (Turin Army Arsenal) maker stamp. Most blades appear to be Unused. The unique scabbards appear to have only slight use or storage wear and come with the original web belt hanger. This is a very rare collectible.

## Vintage Swiss Military Kerosene Floodlight Projector "Tilley Lamp"

The original "off the grid" floodlight! The Tilley FL6 floodlight design has been lighting up borders, prison camps, and various European military installations for decades upon decades. This is a very rare and special piece of Military Surplus. Think of it as a supersize style lantern. Not one single detail was overlooked when these were meticulously crafted by hand, right down to the the special protective armored glass. When properly configured, this light boasts a whopping 3,000 candle power! No electricity required! Includes rare special spiked stand which allows the projector to be secured into the ground and tilted upwards or downwards and swing completely around. Comes with special hand made solid wood storage/transport box. Made to burn ordinary kerosene. Most appear to be dated in the 1960's. Stands approximately 6' tall. Unused, to only slightly Used Condition. Endless information is available on the internet regarding operation, restoration and history, we do not warrant functionality. Made in the United Kingdom.

## Swedish Military Field Phone, Ericsson

FIENDE LYSSNAR, or in English, The enemy is listening! These field phones made by Ericsson were used in the field to relay orders to the front lines.

Powered by D batteries. These days, children growing up would not even have the slightest idea how to use such a device. How cool would it be to string one of these from your children's club house to your house? Vintage phones make great collectibles but when functional they are great for communication between buildings on a farm or remote areas. We do not warrant the functionality of these phones, however they are a simple device that can be made operational with limited electrical experience or a quick internet search. Used, Good Condition.

## Czech Military Field Phone

In all of our travels we have never seen this field phone, which makes it very rare and unique.

I do not believe they have ever hit the surplus market until now. The compact size and design reminds me of the iconic U.S. G.I. EE-8 phone. The expertly constructed hard canvas case ensures these phones will survive being beat around the battle-field. Field phones like this

are great for emergency preparedness, remote farms, hunting camps, fun at home and more. Now is your chance to own a very cool piece of history! Sold untested, as-is. Slightly Used Condition.

## Swiss Military Bunker Phone Set

What did we do before cellphones? Find out for yourself with this complete military phone set. Ideal for farm use, camp, homestead, etc. Perfect for communication between two locations in remote areas where cell service is unreliable. The phone face has a fun to use crank that generates the outgoing signal. This is an excellent military phone set that is plug and play right out of the box. We rarely find phones like this anymore. Powered by a single D cell battery (not included). Each kit comes complete with two phones plus a 200 meter spool of communication wire. Unused Condition.

## Vintage Czechoslovakia Military Tesla T52 Secure Telephone

Used in the 1950's and 1960's by the Czechoslovakia military and state security (StB) for secret communications. They are heavy and very well made! The hand crank produces the old-fashioned ring just like in the movies. With some ingenuity you could probably make these work with standard comm wire. Makes a great display/conversation piece. Most of these appear to have been used but well taken care of. Many are still in factory boxes. Not tested, functionality not guaranteed. Made in Czechoslovakia.

## Vintage Polish Military Switchboard

Imagine what this switchboard heard during the Cold War in Eastern Europe. We believe these switchboards to be from the late

1960s and 1970s. Makes a very unique Militaria display item.

I imagine, with a few field phones, you could have a lot of fun with this switchboard.

Switchboard case is metal with lower storage compartment that stores patch cords. Includes Polish written manuals, canvas carry case, and patch cords. We do not warrant the functionality of this item. We sorted these switchboards into two grades. Please read the description of the grades below.

Grade 1: Complete Used, Good Condition.

Grade 2: Used Hard. Could be scratched or damaged or some what incomplete, but still has a good look.
