★★★★★ 5 STAR RATED

"I've had mine about a year now. The only problem is family trying to walk off with it. I have used this year around as a 4 season tent with no issues. This is the best tent for the money in my opinion. I do use this as a poncho when I'm working out in the rain. I will be ordering again."

German Military 5 Piece Modular Extreme Cold Sleeping Bag System

The beauty of this system is that it is extremely flexible. You are really purchasing several different sleep systems in one because you can customize this set depending on where you are going to deploy it. In the summer time you may only need the cotton inner liner. In the fall you may only need the inner and outer sleeping bag. You get the idea.

The excellent construction of this bag screams German quality. This system is comprised of five pieces: Inner cotton sleeping bag liner, inner down filled sleeping bag, outer down filled sleeping bag, attachable thermal hood, and compression sack. All bags close with heavy duty zipper.

When all components are used together it can be used in extreme cold situations. Weighs approximately 14.5 lbs. Used, Good Inspected Condition.

U.S. G.I. USMC 2 Man
Combat Tent

This tent is just about bomb proof. The USMC 2 Man Combat Tent is superior to most civilian tents for many reasons and loaded with special features. It is completely constructed of durable ripstop nylon, has strong aluminum poles, and comes with waterproof rain fly. The rainfly also prevents light from coming in or out when attached. The rain fly can also be used by itself as a more basic shelter. The tent has two doors (entrance/exit openings). This is a very expertly engineered tent that will last a long time if properly cared for. Floor area: 38 square feet. Desert sand main body with waterproof floor, woodland waterproof rain fly. Complete with poles, stakes, and carry bag. Entire kit weighs approximately 10lbs. Manufactured by Diamond Brand. Genuine Military Surplus. Condition Notes: These tents are in used condition. They do not seem to have been used hard, perhaps only for training purposes. Some may have minor repairs such as holes sewn shut. We have carefully inspected and sorted them to be sure they are functional and complete with main tent body, rainfly, poles, stakes, and carry bags. **MADE IN THE U.S.A.**

Greek Military Sleeping Bag

Military sleeping bags are often superior to any available civilian sleeping bag. This bag is no exception. Designed to be an all in one package much like the U.S. MSS. This is a standard NATO style sleeping bag. The back side of the main bag is made of a waterproof material so you can set up anywhere and stay dry. Attached hood keeps your head and neck warm & dry. Also included is an inner liner that snaps in or can be removed for warmer temperature deployment. The whole system rolls up into an integrated waterproof storage bag. You don't have to be camping outside to enjoy the benefits of this great sleeping bag. Works fine at hunting camp or just about anywhere. I like this bag because it is wider and therefore roomier than the U.S. MSS. Designed for use by individuals 6' 2" in height or less. Unused Condition.

Swedish Military Cotton Blanket

Seeing these blankets brought back memories from when I was young, snuggling on the couch at Grandma's house. The pattern of these Swedish blankets depicts a basket weave stitch, which is designed to trap heat in all the nooks and crannies of the weave. This Cotton Military Swedish Blanket has a 9 1/2" edging down each side. The 3/4" hem sewn on each end keeps the blanket stitches from stretching out and getting loose and prevents the cover from losing its shape. Each Swedish blanket measures 92" x 68" and the size is perfect for that cold, damp or snowy early evening of TV when you just want something draped over you for warmth. Unused Condition.

Vintage Polish Military Wool Blanket

Please read this description very carefully, as each blanket is stunningly unique and different! The pictures shown are just a few examples of the different variations of this blanket.

These Cold War Era blankets are both bold and stunningly beautiful. Thick and heavy, the blankets are an ideal blend of 50% wool and 50% polyester. They are

easily some of the most

interesting and unique blankets we have ever come across. While digging through warehouses in Europe, we were quite lucky to find such a hidden gem and we bought them all! The challenge is that almost every blanket is different! Faced with this dilemma of so many colors and patterns we decided to sell them by color. This means you pick one color and your blanket will contain at least that one color. Choose: Brown, Orange, or Burgundy. That does not mean it will be the only color of the blanket, that simply means it will be sure to have the color you picked represented. The patterns also vary so more than likely each blanket you order will be different. These blankets all measure approximately 60" x 80". Edges of the blankets may also vary from whip stitching to hemmed. Unused Condition.

U.S. G.I. Improved Intermediate Sleeping Bag

This US GI Urban Grey Intermediate Sleeping Bag is an important component of the ACU Digital Modular Sleep System (MSS).

This government issued intermediate sleeping bag is the enhanced version of the older style Black Intermediate Sleeping Bag that pairs with the Woodland Modular Sleep System. This Urban Grey Intermediate Sleeping Bag is light weight, but also built to withstand heavy battlefield abuse. The US government thought of everything when they designed this fantastic all-around sleeping bag. This Intermediate Sleeping Bag includes extra-large zippers, an adjustable draw string hood, and sewn-in chest collar to prevent air drafts. This used Urban Grey Intermediate Sleeping Bag comes in good condition and can be used with or without other MSS components. This sleeping bag is made of tough water resistant ripstop nylon. It is rated by the U.S. Military to be used in temperatures ranging from 30 to -10 degrees Fahrenheit when used properly. The 2-way snaps allow you to connect patrol bag and bivy cover. These Intermediate Sleeping Bags are made in the USA, weight approximately 4 pounds, and measure 78 inches long by 30 inches wide. Used Good Condition.

★★★★★ 5 STAR RATED

“This improved intermediate bag arrived in excellent condition needing only a quick wash in the machine. It differs from the older black intermediate bag by having a 360° internal draft collar, an ergonomic hood with adjustable visor and pull ties instead of noisy metal zipper pulls. It has slightly less over all insulation (lighter and thinner) and lacks the “double insulation “ in the foot box. It is however still quite warm for most of my uses and for only \$35, I'll likely pick up another.”

USMC FILBE

Assault Pack

This assault pack is almost as tough as the Marine it was issued to. This pack is loaded with many extra features a typical military assault pack would not have. Featuring adjustable padded, contoured shoulder straps, 2-way zippers, padded foam back, sternum strap and waist belt, and carry handle. One large main compartment and one smaller outside compartment. Both feature plenty of organizational pockets. The real evidence that this pack was overengineered: There are backup metal shoulder strap buckles just in case the main straps or buckles fail. MOLLE compatible for attaching additional pouches. The fact that these packs saw a tour and are still in usable condition really says a lot about the durability. These packs are dirty and will need a good clean up, but do not let that stop you from owning one of the best military assault packs ever produced. Color: Coyote. Manufactured by Eagle Industries. Italian Military Nylon Belt Pouch

My first impression of this useful pouch is how strong and durable it is. The rigid nylon construction appears to have a waterproof coating on it, as it easily beads off water. This pouch would be useful to stow some survival gear, cell phone, GPS, knife, or small flashlight. It would also make a great ammo pouch. Front Velcro closure keeps your contents secure. Two keeper clips are included on the back of this pouch so you can easily attached it to your belt or pack. Measures approximately 6" wide x 5" tall x 3" deep. Unused condition. Some of the keeper clips seem to show slight signs of wear. Made in Italy.

Vintage British Military Wine Bag

**NEW
ITEM**

I'm pretty sure that this bag's original purpose wasn't for soldiers to carry wine, bread, and cheese to a party or picnic, but what a perfect bag for the job! These bags have some very cool features that you don't see in many bags manufactured today. The old heavy-duty olive drab cotton canvas makes up the body of this bag. The brass fixtures and the leather accents really add to that classic old military look! There are two inside pockets that can hold a wine bottle in each side of the bag. You will want to clean these bags up a bit to haul wine, cheese, and bread in them, but it is well worth the effort. Bags may also have marking from previous owners. Used Condition.

★★★★★ **5 STAR RATED**

"Last week I received the "French Military Waterproof Rain Coat". I have been shopping for an affordable 3 layer laminate waterproof, seam taped, wet weather camouflage parka. I have to say this "French Military Waterproof Rain Coat" is the best deal I have ever found. The price for similar quality of 3 layer fabric is about \$200 over the price of this parka. I am very happy with my purchase. Nice to find a woodland type pattern. What this parka does not have, it does not have a snow skirt or a mid waist draw string, making it more the "rain coat" than the mountain snow jacket. Which is what I was looking for. Excellent buy. (the main zipper is huge and a bit tricky, but still 5 stars.)"

Italian Military M4 Bayonet for the M1 Carbine

The M4 Bayonet Knife was first adopted in 1944 for use with the .30 caliber M1 Carbine. Many countries produced their own M4 bayonets to use on the iconic M1 Carbine. The US Military provided M1 Carbines to Italy in the 1950s and 1960s under what was called the Military Assistance Program. M1 Carbine rifles were used in Italy well into the 1990s. The Italian Military had to have a bayonet for the M1 and ended up producing these excellent M4 bayonets. Blade measures 6 1/2". Hand crafted, wooden grip. Bayonets are dated in the late 1950's and have the Arsenale Esercito Torino (Turin Army Arsenal) maker stamp. Most blades appear to be Unused. The unique scabbards appear to have only slight use or storage wear and come with the original web belt hanger. This is a very rare collectible.

★★★★★ 5 STAR RATED

"I just received my knife today, and would like to say WOW! I was looking for an affordable "bushcraft" knife, and I found it! Sharp enough to shave. Feels great in the hand. The sheath is decent, well above the price point. It's leather with a plastic insert, nothing fancy. The knife however is fantastic! The knife quality far exceeds the \$14.95 entrance fee. I like this knife so much, I just ordered 3 more, to give as gifts. Very impressed!"
